Summary

Results-driven data analytics and procurement professional with expertise in developing data-driven solutions, streamlining processes, and implementing automation tools to drive cost savings and enhance operational efficiency.

Skills

Data Analysis Tools: Power BI, Excel, Python
Cloud Platforms: SharePoint, Microsoft Power Query, SAP
Programming Languages: Python, VBA
Project Management: Lean methodologies, Agile, Supply Chain Management
Methodologies: Predictive analytics, Data-driven decision making, Zero-based costing
Soft Skills: Communication, Collaboration, Supplier relationship management

Work Experience

- Purchaser in Global Procurement**
Vestas Wind Systems

Nov 2021 - Aug 2023

 - Achieved a 15% reduction in procurement costs by developing data-driven supplier evaluation and conducting detailed cost analysis in supply chain operations.
 - Streamlined purchasing processes by 20% through predictive analytics for demand forecasting, enhancing inventory management and supplier coordination.
 - Delivered savings of \$35M by developing Python-based automation tools to optimize procurement and buying workflows, improving operational efficiency.
- Consultant ECM Purchaser in Global Procurement,Vestas**
ManpowerGroup Services

Jan 2021 - Nov 2021

 - Reduced procurement costs by 10% through data-driven process optimization in supply chain and purchasing operations.
 - Collaborated with project managers to plan budgets, coordinate bid processes, and conduct bid evaluations, ensuring cost-effective procurement aligned with project goals.
 - Identified savings of 3M EUR by analyzing supplier costs and optimizing payment credit periods, implementing efficient procurement strategies.
- Procurement Engineer(Intern) - Global Sourcing**
Valeo India

Jan 2019 - Jan 2021

 - Managed RFx processes across supply chain segments, achieving 10–15% cost reductions through competitive vendor sourcing and strategic procurement.
 - Built a robust supplier base by inducting vendors, implementing double sourcing, and driving localization, improving supply chain efficiency by 20%.
 - Executed supplier auctions using digital platforms, reducing procurement costs by 8–12% through competitive bidding and strategic negotiations.

Projects

- Data Science Project**

Developed a predictive model using Python and scikit-learn to forecast sales demand, improving procurement planning and reducing inventory costs.
(Python, Scikit-learn, Predictive Modeling, Sales Forecasting)
- Cloud Data Warehouse**

Designed and implemented a cloud-based data warehouse using AWS Redshift and Tableau, enhancing data analytics and visualization capabilities for procurement insights.
(AWS Redshift, Tableau, Cloud Computing, Data Warehousing)

Education

- Post Grad Diploma in Data Analytics for Business**
St. Clair College, Canada

GPA: 4.0 / 4.0
Sep 2023 - Apr 2025
- Bachelor of Mechanical Engineering**
St. Joseph's Institute of Technology, India

GPA: 3.7 / 4.0
Jun 2014 - Jun 2018
