Summary

Strategic Procurement and Supply Chain Analyst with 8+ years of experience leading sourcing, supplier management, procurement operations, and cost optimization initiatives across global manufacturing and industrial environments. Proven expertise in strategic sourcing, vendor negotiations, procurement analytics, ERP systems, and supplier performance management using Power BI, SQL, and Excel. Experienced managing end-to-end purchasing operations including purchase orders, shipment tracking, lead-time monitoring, contract management, and supplier risk mitigation. Adept at collaborating cross-functionally with operations, engineering, finance, and sales teams to improve supply continuity, operational efficiency, and procurement performance.

Skills

Procurement: Strategic Sourcing, RFx, Vendor Management, PO Management, Category Management
Supplier Management: Supplier KPIs, Supplier Audits, Supplier Development, Supplier Risk, Vendor Relations
Contracts: Master Agreements, Contract Negotiation, Pricing Analysis, Commercial Terms, Cost Modeling
Analytics: Power BI, SQL, Excel, Tableau, Data Modeling
Reporting: KPI Dashboards, Forecasting, Procurement Reporting, Cost Analysis, Vendor Scorecards
Logistics: Shipment Tracking, Lead Time Analysis, Freight Coordination, Inventory Planning, Supply Continuity
ERP Systems: SAP, Dynamics 365, Business Central, ERP Reporting, Data Extraction
Operations: Process Improvement, Continuous Improvement, Cross-functional Collaboration, Stakeholder Management, Root Cause Analysis
Technical: Blueprint Reading, Technical Specifications, Industrial Components, Mechanical Systems, PLC Components
Leadership: Team Coordination, Procurement Governance, Vendor Escalation, Training, Operational Support
Core Competencies: Strategic Procurement, Supplier Negotiation, Procurement Analytics, Inventory Planning, Cost Optimization, Contract Management, Supply Risk Mitigation, Vendor Performance, PO Management, Lead Time Reduction

Work Experience

- Procurement Buyer**
Decibel Cannabis Company

Dec 2025 - Present

 - Built custom SQL-based tracking systems that automated supplier performance monitoring, cutting manual reporting time by 50% and providing early warnings for dependency risks.
 - Designed interactive Power BI dashboards that turned messy procurement data into clear, actionable insights, helping the team speed up sourcing workflows.
 - Maintained 99%+ data accuracy within Sage ERP, ensuring the leadership team had a 'single source of truth' for end-to-end supply chain visibility.
 - Streamlined data mining processes by engineering complex queries to pull from large datasets, transforming raw numbers into monthly performance reports.
 - Reduced stockouts (98% production uptime) by re-engineering purchase planning for global suppliers with long lead times.
 - Maintained lean inventory levels by synchronizing the full PO lifecycle with real-time manufacturing demands and monthly forecasts, reducing excess stock by 20%.
 - Spearheaded strategic sourcing initiatives that slashed procurement costs while diversifying the supplier base to lower organizational risk.
 - Balanced inventory vs. finance goals to satisfy production needs while reducing capital expenditure and holding costs.
 - Boosted vendor accountability and lead-time reliability through a high-engagement relationship model, resulting in a 30% improvement in on-time deliveries.
 - Led cross-functional 'Continuous Improvement' sessions, collaborating with stakeholders to bridge gaps between departments and implement procurement tools that scaled with the business.
 - Architected a Star Schema data model by structuring procurement data into Fact and Dimension tables, enhancing Power BI report performance and enabling intuitive self-service analytics.
 - Managed the end-to-end Procure-to-Pay (P2P) lifecycle, streamlining PO creation and shipment tracking to achieve a 98% on-time delivery rate and ensuring seamless invoice reconciliation.
- Purchaser in Global Procurement**
Vestas Wind Systems

Nov 2021 - Aug 2023

 - Reduced procurement costs by 15% by implementing data-driven supplier evaluation models, conducting cost analysis, and negotiating strategic vendor agreements across global supply chains.
 - Improved purchasing efficiency by 20% through predictive demand forecasting and inventory planning models, strengthening supplier coordination and reducing procurement delays.
 - Designed supplier scorecards and procurement KPI dashboards using Power BI and Excel, enabling leadership to evaluate supplier reliability, pricing competitiveness, quality, and service levels.
 - Mitigated supply chain risks by developing alternate sourcing strategies, evaluating supplier capabilities, and proactively addressing lead-time constraints, shortages, and supplier performance issues impacting production timelines.
 - Negotiated supplier contracts and commercial agreements that delivered measurable cost savings while maintaining compliance with procurement and operational standards.
 - Managed sourcing activities for electrical controls, converters, cables, and industrial equipment, overseeing purchase orders, supplier coordination, and logistics execution across projects.
 - Leveraged market intelligence, pricing analysis, and category planning strategies to identify sourcing opportunities and achieve 12% procurement cost savings.
 - Negotiated supplier agreements and optimized commercial terms with primary and secondary vendors, strengthening supply continuity and improving procurement scalability across global sourcing operations.
 - Procured industrial electrical and mechanical components while collaborating with engineering teams to interpret technical specifications, validate supplier capabilities, and support operational requirements.
- Consultant ECM Purchaser in Global Procurement,Vestas**
ManpowerGroup Services

Jan 2021 - Nov 2021

 - Coordinated supplier logistics, shipment tracking, and transportation issue resolution while proactively addressing delayed, lost, and damaged shipments to maintain operational continuity. - Reduced procurement costs by 10% through process optimization initiatives focused on purchasing workflows, supplier management, and sourcing efficiency.
 - Partnered with project managers to support budgeting, bid evaluations, and supplier selection processes, ensuring cost-effective procurement aligned with operational goals.
 - Led RFx and competitive sourcing initiatives with global suppliers, achieving an 8% reduction in procurement costs through strategic negotiations and supplier benchmarking.
 - Managed global sourcing activities with cost-effective suppliers, maintaining 100% on-time delivery performance and adherence to quality standards.
 - Collaborated with vendors, engineering teams, and project stakeholders to align procurement activities with technical specifications and project timelines.
 - Standardized procurement templates, governance processes, and operational tools, improving compliance and accelerating cross-functional execution by 20%.
- Procurement Engineer(Intern) - Global Sourcing**
Valeo India

Jan 2019 - Jan 2021

 - Managed end-to-end RFx processes and strategic sourcing initiatives, achieving 10–15% procurement cost reductions through competitive vendor negotiations and supplier benchmarking.
 - Expanded and diversified the supplier base through vendor onboarding, localization initiatives, and dual-sourcing strategies, improving supply continuity and reducing sourcing risks by 20%.
 - Performed zero-based costing and detailed pricing analysis using advanced Excel tools, enabling data-driven negotiations that achieved 15% procurement savings.
 - Conducted multiple supplier auction events that achieved average savings of 15% while strengthening supplier competitiveness and commercial transparency.
 - Developed procurement KPI dashboards and supplier performance reports that reduced reporting turnaround time by 40% and improved operational visibility.
 - Conducted market benchmarking and pricing analysis for procurement categories, identifying pricing outliers and supporting standardized sourcing strategies.
 - Performed supplier risk assessments, pricing evaluations, and commercial benchmarking to support sourcing decisions, strengthen supplier reliability, and improve procurement risk management.

Projects

- Supply Chain Risk Mitigation**

Developed a Python-based supply risk monitoring tool to identify alternative suppliers, track procurement disruptions, and improve sourcing continuity for critical materials.
(Python, Supply Chain Risk, Procurement, Supplier Analysis)
- Global Sourcing Strategy**

Developed data-driven sourcing and supplier diversification strategies that achieved 10–15% cost savings while strengthening supply continuity across global procurement operations.
(Global Sourcing, Cost Optimization, Supplier Strategy, Procurement)
- E-Auction Platform**

Implemented digital e-auction procurement solutions that improved supplier competitiveness and reduced procurement costs by 8–12% across sourcing categories.
(E-Auction, Procurement, Strategic Sourcing, Cost Reduction)

Education

Post Grad Diploma in Data Analytics for Business
St. Clair College, Canada

GPA: 4.0 / 4.0
Sep 2023 - Apr 2025

Bachelor of Mechanical Engineering
St. Joseph's Institute of Technology, India

GPA: 3.7 / 4.0
Jun 2014 - Jun 2018
