Summary

Strategic Supply Chain Business Analyst and Procurement Data Professional with 7+ years of experience managing procurement master data, ERP systems, supplier information, inventory planning, and supply chain analytics across global manufacturing organizations. Proven expertise in maintaining data integrity, developing Power BI dashboards, automating reporting using SQL, Python and VBA, and implementing data governance standards that improve procurement performance and operational visibility. Experienced collaborating with Procurement, IT, Engineering, Operations, Finance and suppliers to support ERP enhancements, continuous improvement initiatives, and data-driven decision making.

Skills

Procurement Data: Master Data Management, Supplier Master, Item Master, Data Governance, Data Quality
ERP Systems: SAP, SAP Ariba, Sage ERP, ERP Configuration, System Integration
Analytics: Power BI, SQL, Excel VBA, Power Query, Tableau
Automation: Python, Power Automate, ETL, Workflow Automation, Process Automation
Supply Chain: Inventory Management, Demand Planning, Supplier Performance, Procure-to-Pay, End-to-End Supply Chain
Reporting: KPI Dashboards, Procurement Reporting, Data Visualization, Performance Metrics, Operational Visibility
Business Excellence: Continuous Improvement, Business Analysis, Root Cause Analysis, Process Mapping, Stakeholder Collaboration

Work Experience

- Category Buyer

Dec 2025 - Present

Decibel Cannabis Company

 - Owned procurement master data within Sage ERP, maintaining 99%+ supplier and item data accuracy through standardized governance, validation controls, and continuous data quality audits, providing a trusted single source of truth for procurement operations.
 - Architected a Star Schema data model by organizing procurement data into Fact and Dimension tables, improving Power BI report performance and enabling scalable self-service analytics and operational visibility.
 - Automated procurement reporting using SQL and Python, improving spend visibility, reducing manual reporting effort by 30%, and supporting strategic sourcing and procurement performance tracking.
 - Developed interactive Power BI dashboards to monitor procurement KPIs, supplier performance, inventory trends, and purchasing metrics, enabling faster data-driven decision making across Procurement and Operations.
 - Established procurement data governance standards by standardizing supplier master records, reporting processes, and validation controls across multiple systems, improving reporting consistency and audit readiness.
 - Partnered with Procurement, Operations, Finance, and IT stakeholders to gather business requirements, support ERP enhancements, and lead continuous improvement initiatives that optimized procurement workflows.
 - Managed the end-to-end Procure-to-Pay (P2P) lifecycle, supporting ERP master data maintenance, supplier onboarding, purchase order accuracy, shipment tracking, and invoice reconciliation to sustain a 98% on-time delivery rate.
- Purchaser in Global Procurement

Nov 2021 - Aug 2023

Vestas Wind Systems

 - Managed SAP material and supplier master data using VBA automation, improving procurement data accuracy by 25% while strengthening ERP system integrity and data governance.
 - Delivered \$35M in procurement savings by developing Python automation tools that streamlined purchasing workflows, reduced manual effort, and improved operational efficiency.
 - Designed Power BI dashboards to monitor procurement KPIs, supplier performance, category spend, and inventory metrics, improving procurement visibility and executive reporting.
 - Collaborated with IT and cross-functional teams to integrate SAP, SharePoint, and Power Query workflows, supporting ERP enhancements and reducing manual procurement activities by 30%.
 - Applied predictive analytics to demand planning and inventory management, improving purchasing efficiency by 20% and strengthening supplier coordination.
 - Performed supplier performance analysis and sourcing risk assessments, identifying alternative sourcing strategies that resolved 95% of potential supply chain disruptions.
 - Developed data validation routines to automate procurement master data quality checks, improving system reliability and reducing manual data maintenance.
- Consultant ECM Purchaser in Global Procurement,Vestas

Jan 2021 - Nov 2021

ManpowerGroup Services

 - Supported SAP ERP master data management by maintaining supplier records, standardizing procurement data, and improving system accuracy while reducing manual processing by 30%.
 - Developed Power BI dashboards and Python reporting solutions to monitor procurement KPIs, supplier performance, and purchasing metrics, improving decision-making accuracy by 18%.
 - Built cloud-based workflow automation solutions that increased procurement team productivity by 30% while improving purchasing process efficiency.
 - Gathered business requirements from Procurement and Supply Chain teams to support ERP enhancements, workflow improvements, and purchasing process optimization, reducing procurement cycle time by 20%.
 - Established procurement data governance practices by standardizing supplier documentation, procurement templates, and process controls, improving compliance and cross-functional consistency by 20%.
 - Automated procurement data validation and reporting, reducing manual effort by 25% while improving data accuracy and reporting reliability.
 - Collaborated with Supply Chain, Procurement, and Operations teams to translate business requirements into process improvements, delivering procurement initiatives 10% faster.
- Procurement Engineer(Intern) - Global Sourcing

Jan 2019 - Jan 2021

Valeo India

 - Developed Excel reports to monitor procurement KPIs, supplier performance, and purchasing metrics, reducing reporting time by 40% and improving operational visibility.
 - Performed zero-based costing using advanced Excel, macros, and analytical models, enabling data-driven negotiations that reduced procurement costs by 15%.
 - Led digital RFx sourcing initiatives by evaluating supplier bids, analyzing procurement data, and executing competitive sourcing strategies that achieved 8-12% cost reductions.
 - Maintained supplier master data and conducted supplier risk assessments to strengthen procurement governance, improve compliance, and reduce supply continuity risks.
 - Analyzed Linear Pricing Patterns (LPP) and procurement cost trends to identify pricing anomalies, supporting standardized pricing frameworks and strategic sourcing decisions.
 - Performed supply chain cost benchmarking using market intelligence and procurement analytics to identify pricing opportunities and improve purchasing decisions.
 - Expanded the supplier network through vendor onboarding, localization initiatives, and dual sourcing strategies, improving supply continuity, procurement resilience, and operational efficiency by 20%.

Projects

- Procurement Master Data Analytics Platform

Developed a Power BI reporting platform integrating procurement master data, supplier performance, inventory metrics, and category spend to provide operational visibility, KPI reporting, and executive decision support.
(Power BI, Procurement Master Data, KPI Dashboards, Data Visualization)
- ERP Master Data Governance Automation

Automated supplier and material master data validation using SAP, Excel VBA, and workflow automation, improving ERP data integrity, governance, and procurement reporting accuracy.
(SAP, Excel VBA, Data Governance, ERP Systems)
- Supplier Master Data Governance Dashboard

Designed supplier scorecards and procurement dashboards to monitor supplier delivery, quality, lead-time performance, and master data quality while establishing governance standards for supplier development.
(Supplier Master Data, Data Governance, Supplier Performance, KPI Reporting)
- Procurement Data Quality Improvement Initiative

Led procurement process improvements by standardizing RFx documentation, supplier evaluation criteria, and procurement data validation processes, improving reporting accuracy and procurement governance across the supply chain.
(Process Improvement, Data Validation, Supplier Evaluation, RFx)

Education

Post Grad Diploma in Data Analytics for Business
St. Clair College, Canada

GPA: 4.0 / 4.0
Sep 2023 - Apr 2025
