Summary

Portfolio Analyst and Data Analytics Professional with 7+ years of experience delivering portfolio reporting, dashboard development, data governance, and process automation across project and operational environments. Skilled in portfolio monitoring, KPI reporting, data quality management, stakeholder collaboration, and workflow optimization using Power BI, SQL, SharePoint, SAP, and automation tools. Proven ability to improve reporting accuracy, identify emerging risks, and support scalable portfolio management and PMO practices.

Skills

Portfolio Management: Portfolio Reporting, Portfolio Monitoring, Portfolio Analytics, Portfolio Governance, PPM Systems
Project Controls: Project Lifecycle, Project Controls, Scheduling, Dependency Tracking, Lessons Learned
Data Governance: Data Quality, Data Validation, Metadata Standards, Data Reconciliation, Data Governance
Reporting & Dashboards: Power BI, Dashboard Development, KPI Reporting, Executive Reporting, Status Reporting
Analytics: Trend Analysis, Risk Analysis, Forecasting, Root Cause Analysis, Decision Support
Systems & Tools: SharePoint, SAP, SQL, Power Query, Smartsheet
Automation: Workflow Automation, Process Automation, AI Tools, Python, VBA
PMO Support: PMO Operations, Portfolio Reviews, Knowledge Transfer, Documentation, Stakeholder Engagement
Collaboration: Cross Functional Teams, Facilitation, Requirements Gathering, Change Management, Issue Resolution

Work Experience

- Procurement Buyer**
Decibel Cannabis Company

Dec 2025 - Present

 - Developed SQL-based portfolio reporting solutions that automated supplier and project performance monitoring, reducing manual reporting effort by 50% while providing early-warning indicators for delivery and supply risks.
 - Designed Power BI dashboards consolidating procurement, inventory, and operational KPIs, improving visibility into project status, supplier performance, and business-critical metrics for leadership reviews.
 - Established data governance controls within Sage ERP, maintaining 99%+ data accuracy and ensuring consistent, reliable reporting across procurement and operational portfolios.
 - Engineered automated data extraction and validation processes across large datasets, reducing reporting cycle times by 40% and improving data completeness and accuracy.
 - Collaborated with business stakeholders to collect, validate, and reconcile project data from multiple systems, ensuring consistent portfolio reporting and governance compliance.
 - Developed portfolio status dashboards and executive reporting packages that improved visibility into project health, resource utilization, KPI performance, and schedule risks.
 - Analyzed project and portfolio performance indicators to identify trends, anomalies, and emerging risks, providing early warning signals that improved proactive decision-making.
 - Led continuous improvement initiatives by partnering with cross-functional stakeholders to standardize reporting processes, strengthen data quality controls, and improve operational decision-making.
- Purchaser in Global Procurement**
Vestas Wind Systems

Nov 2021 - Aug 2023

 - Developed enterprise Power BI dashboards tracking project procurement KPIs, supplier performance, spend trends, and delivery metrics, improving portfolio visibility for leadership decision-making.
 - Automated procurement and reporting workflows using Python, SharePoint, and Power Query, reducing manual effort by 30% and improving reporting consistency across teams.
 - Enhanced data quality and system integrity by automating SAP master data validation processes, reducing reporting errors by 25% and improving data reliability.
 - Partnered with engineering, supply chain, and project stakeholders to collect, validate, and reconcile operational data, ensuring accurate reporting and portfolio transparency.
 - Developed portfolio review dashboards that tracked project status, milestones, schedule performance, risks, and resource utilization across global procurement initiatives.
 - Coordinated with project managers, engineering teams, and operational stakeholders to validate project data, resolve reporting discrepancies, and improve portfolio transparency.
 - Identified planning dependencies, schedule conflicts, and delivery risks across project portfolios, enabling timely escalation and mitigation actions.
 - Established procurement governance processes, documentation standards, and training materials that improved compliance, knowledge transfer, and operational consistency.
- Consultant ECM Purchaser in Global Procurement,Vestas**
ManpowerGroup Services

Jan 2021 - Nov 2021

 - Developed reporting frameworks and performance dashboards that improved visibility into procurement KPIs, enabling data-driven operational decision-making.
 - Coordinated with project managers, suppliers, and cross-functional teams to collect, validate, and reconcile project data supporting procurement and budget reporting requirements.
 - Implemented Lean process improvements and governance controls that streamlined workflows, improved reporting consistency, and strengthened operational efficiency.
 - Developed cloud-based workflow automation tools that increased team productivity by 30% and standardized procurement reporting activities.
 - Built Python and Power BI reporting solutions that improved KPI visibility, accelerated reporting timelines, and enhanced management decision-making.
 - Produced recurring portfolio reporting packages and KPI scorecards supporting project reviews, leadership reporting, and operational planning activities.
 - Developed standardized reporting templates, governance controls, and knowledge-transfer documentation that improved reporting consistency and user adoption.
 - Monitored project performance metrics and data quality indicators, investigating reporting anomalies and coordinating corrective actions with stakeholders.
- Procurement Engineer(Intern) - Global Sourcing**
Valeo India

Jan 2019 - Jan 2021

 - Managed RFx and sourcing activities across multiple procurement portfolios, delivering 10–15% cost reductions while maintaining supplier performance and quality standards.
 - Built and maintained supplier performance dashboards that improved KPI visibility, reduced reporting effort by 40%, and supported data-driven sourcing decisions.
 - Conducted supplier risk assessments and portfolio analysis, identifying potential supply continuity risks and supporting mitigation planning.
 - Developed project portfolio dashboards that consolidated schedule, supplier, cost, and performance metrics into a single reporting framework for management reviews.
 - Supported portfolio risk assessments by analyzing project trends, identifying exceptions, and providing recommendations to mitigate delivery and operational risks.
 - Maintained reporting documentation, process standards, and lessons-learned repositories that improved organizational knowledge sharing and reporting maturity.
 - Analyzed pricing trends, sourcing performance, and supplier metrics to identify anomalies, opportunities, and emerging risks for management review.

Projects

- Supply Chain Risk Mitigation**
Developed a sourcing-risk analysis solution that identified alternative suppliers, monitored supply disruptions, and improved procurement continuity planning.
(Supplier Risk, Procurement, Supply Continuity, Supply Chain)
- Demand Gap Analysis & Inventory Optimization**
Developed ERP-driven purchasing models to identify demand gaps, forecast shortages, and optimize inventory levels across critical material portfolios, improving supply continuity and inventory health.
(Demand Analysis, Inventory Planning, ERP, Supply Continuity)
- Portfolio Reporting & Governance Framework**
Developed an enterprise reporting framework using Power BI, SQL, and SharePoint that automated KPI reporting, enforced data quality controls, and improved portfolio visibility for leadership decision-making.
(Portfolio Reporting, Data Governance, Power BI, SharePoint)
- Portfolio Risk Monitoring Dashboard**
Built automated dashboards and exception reporting tools that monitored project KPIs, schedule risks, and data quality metrics, providing early warning signals and supporting portfolio review forums.
(Portfolio Analytics, Risk Monitoring, Dashboarding, KPI Reporting)

Education

- Post Grad Diploma in Data Analytics for Business**
St. Clair College, Canada

GPA: 4.0 / 4.0
Sep 2023 - Apr 2025
- Bachelor of Mechanical Engineering**
St. Joseph's Institute of Technology, India

GPA: 3.7 / 4.0
Jun 2014 - Jun 2018
