Summary

Results-oriented Buyer and Procurement Specialist with 5+ years of experience in global sourcing, material management, and supplier negotiations across renewable energy and manufacturing industries. Skilled in managing overseas procurement to support production schedules through effective MPS/MRP planning, cost control, and supplier performance management. Proven success in reducing procurement costs by up to 15% and improving delivery adherence to 97% by leveraging ERP systems (SAP), Power BI, and Excel-based automation. Adept at interpreting BOMs, analyzing lead times, and executing purchasing strategies that ensure on-time, cost-effective, and quality-compliant material availability. Recognized for driving continuous improvement in procurement processes, optimizing inventory, and strengthening supplier relationships to exceed organizational goals.

Skills

Procurement: Sourcing, Negotiation, Cost Control, RFX, Contracting, Supplier Management
Material Planning: MRP, MPS, BOM Analysis, Lead Time, Order Accuracy
Supply Chain: Logistics, Inventory, Forecasting, Scheduling, Vendor Coordination, JIT
Analytics: Power BI, Excel VBA, KPI Tracking, Data Modeling, Cost Analysis, Dashboarding
ERP Systems: SAP MM, Data Integration, Automation, Master Data
Performance: OTIF, Service Level, Benchmarking, Efficiency, Quality Metrics
Continuous Improvement: Lean, Process Optimization, Risk Mitigation, Supplier Development, Standardization

Work Experience

Purchaser in Global Procurement Vestas Wind Systems	Nov 2021 - Aug 2023
- Reduced overseas material procurement costs by 15% through strategic supplier negotiations and freight optimization, ensuring on-time delivery to production lines. - Enhanced MRP-driven material planning accuracy by 20% by validating SAP master data, minimizing shortages and excess inventory. - Streamlined purchase order workflows by automating ERP data entry using Python and Power Query, cutting manual processing time by 30% and improving order accuracy. - Improved supplier delivery adherence from 85% to 97% by implementing vendor performance scorecards and corrective action tracking in Power BI. - Led sourcing initiatives for electrical and control components across global suppliers, achieving \$35M in cumulative cost savings through benchmarking and competitive bidding. - Designed and deployed a Power BI procurement dashboard integrated with MRP data, enabling real-time visibility into lead times, spend, and supplier reliability for planning teams. - Developed procurement automation scripts in Python to validate supplier master data and RFQ responses, reducing cycle time by 40% and improving sourcing decisions. - Collaborated with production planners to align material requirements with manufacturing schedules, preventing stockouts and ensuring 100% schedule adherence. - Conducted detailed cost analysis for BOM components and alternate sourcing strategies, mitigating supply risk and saving 10% on high-volume electrical items.	
Consultant ECM Purchaser in Global Procurement,Vestas ManpowerGroup Services	Jan 2021 - Nov 2021
- Managed overseas sourcing of electrical & mechanical components, while maintaining 100% compliance with quality and lead-time standards. - Supported MPS/MRP material planning by analyzing inventory projections, resulting in a 15% improvement in production readiness and reduced line stoppages. - Improved procurement data accuracy in SAP by 25% through automation and standardization of purchase requisition workflows. - Developed cloud-based procurement tracking tools to centralize supplier lead times and shipping status, improving visibility and reducing delays by 20%. - Negotiated with global suppliers to extend payment terms and reduce unit costs, achieving savings of €3M across multiple sourcing categories. - Partnered with production and logistics teams to coordinate just-in-time (JIT) deliveries, lowering excess stock levels by 12%. - Implemented Lean procurement practices that shortened purchasing cycle times by 20% and enhanced cross-functional coordination. - Built Power BI dashboards to monitor procurement KPIs (on-time delivery, cost variance, and supplier quality), improving data-driven decision-making by 18%.	
Procurement Engineer(Intern) - Global Sourcing Valeo India	Jan 2019 - Jan 2021
- Executed MRP-based purchasing strategies across mechanical and plastic categories, achieving 10–15% cost savings through supplier localization and competitive bidding. - Managed supplier onboarding, audits, and double sourcing initiatives to strengthen global supply base and improve delivery reliability by 20%. - Conducted e-auctions and cost benchmarking for overseas suppliers, realizing 12% cost reductions while ensuring material availability for production. - Performed zero-based costing using Excel macros and pivot analytics to identify cost anomalies, contributing to 15% reduction in total procurement spend. - Improved procurement forecast accuracy by integrating BOM and consumption data into Excel-based models, aligning purchase orders with production schedules. - Built supplier performance dashboards to track OTIF (On-Time In-Full) metrics, reducing reporting time by 40% and supporting continuous improvement initiatives. - Introduced RXIL TReDS for supplier financing, improving payment efficiency and supplier cash flow resilience. - Analyzed supply chain risks by mapping overseas lead times and alternate sourcing options, mitigating potential delays and ensuring 95% supply continuity.	

Projects

Procurement Analytics Dashboard Designed a Power BI dashboard to integrate MRP data with supplier KPIs, providing real-time insights into spend, delivery performance, and inventory levels to support production planning. (Power BI, MRP, Procurement, Supply Chain)
Global Sourcing Strategy for Electrical Systems Built data-driven global sourcing framework for electrical and control components, achieving 15% cost savings and improving on-time delivery by 12%. (Global Sourcing, Electrical Procurement, Cost Optimization, Supplier Strategy)
RFX Automation for Overseas Procurement Developed Python scripts to automate overseas supplier bid evaluations, cutting cycle times by 40% and standardizing quotation analysis for global sourcing. (Python, RFX, Procurement, Automation)
Supplier Performance Dashboard Built an interactive Tableau dashboard consolidating MPS/MRP data with supplier scorecards, enhancing visibility into cost, lead time, and delivery performance. (Tableau, MRP, Procurement, Data Visualization)
E-Auction Platform Implemented an e-auction platform for global suppliers, reducing component sourcing costs by 8–12% and accelerating competitive sourcing cycles. (E-Auction, Procurement, Global Sourcing, Cost Reduction)

Education

Post Grad Diploma in Data Analytics for Business St. Clair College, Canada	GPA: 4.0 / 4.0 Sep 2023 - Apr 2025
Bachelor of Mechanical Engineering St. Joseph's Institute of Technology, India	GPA: 3.7 / 4.0 Jun 2014 - Jun 2018
